

# West Valley #2 - School Plan 2019-2020

1. Briefly describe the School LAND Trust Plan by explaining each goal the council has identified.

\*\*\*\*

## GOAL #1

a. State the SPECIFIC goal including when the school will reach the goal.

By using the School Land Trust monies to improve technology usage in our school, we hope to maintain or improve our school Language Arts, Math, and Science standardized assessment scores. Our hope is that as we continue to improve technology use in these subject areas, content will be more effectively and efficiently delivered to our students and they will be able to retain more content. Utilizing Core Knowledge Guidelines will provide our teachers with important information as they prepare and teach their students. Prior testing allows them to see where their students are and what needs to happen so that they reach the next mastery level benchmark. We believe that this practice will assist our students in achieving higher scores as they move through the curriculum.

b. Highlight the academic area for this goal from the list.

Technology

c. Identify the specific measurement(s) you will use to determine if you are making progress towards the goal.

We will continue our practice of using Core Knowledge Testing in the elementary grades to measure student progress through each grade level. Our assessment goal for 2019-20 will be to improve or maintain proficiency from the 2018-19 school year test results.

d. List the specific steps of the ACTION PLAN to reach this goal.

1) American Preparatory Academy (APA) has a Technology Plan that includes a computer replacement schedule so that our stock does not become outdated and need replacing at one time. West Valley 2 is due to replace 29 staff computers this year. 29 Macbook Computers will cost approximately \$29,000.

2) American Preparatory Academy (APA) has a Technology Plan that includes a

computer replacement schedule so that our stock does not become outdated and need replacing at one time. West Valley 2 is due to replace 59 student computers and two computer carts this year. 59 Macbook Computers with two computer carts will cost approximately \$63,198.

3) American Preparatory Academy has a Technology Plan that includes having Audio Communication Systems in each classroom. This helps teachers better deliver content material and curriculum. West Valley 2 has 25 classrooms in need of audio enhancements to the existing Audio Communication Systems. 25 audio enhancements with cable runs and switches will cost approximately \$55,325.

4) West Valley 2 is in need of an updated sound system in the gym to help students hear better when bigger, academic events are happening in the gym. Updating the sound system in the 2 gyms will cost approximately \$21,610.

5) Teachers will use assessment data they collect throughout the year to determine mastery of Common Core State Standards (CCSS) and will teach to mastery. Academic teams will use assessment data in their decisions to make technological changes to their content delivery and online practice time.

**4. Plans for expenditures of an increased distribution:** The 2018-2019 distribution in this plan is an estimate. If the actual distribution is more than the estimate, how will additional funds be spent to implement the goals described in the plan? Please indicate the goal number(s) identified above and explain how the increased funds will further implement the action plan. Please provide an adequate explanation of academic use so that it will not be necessary to go back to the school board for approval to expend an increased distribution.

**Increased distributions shall go toward additional classroom technology needs.**

**5. How will the plan and results be publicized to your community?
